

Author's Declaration Form

Manuscript Title: _____

Authorship Responsibility

The undersigned authors warrant that:

1. The article is original, does not infringe upon any copyright or other proprietary rights of any third party, and is not under consideration by another journal.
2. The article does not overlap or duplicate any other article, whether published or not. If it does, provide details in the cover letter.
3. They have reviewed and approved the final version of the manuscript and that they have taken due care to ensure its integrity.

Author Contribution

4. The contribution of each author is briefly outlined here:

Generative AI and AI-Assisted Technologies

5. Authors are to disclose the use of generative artificial intelligence (AI) and AI-assisted technologies in the production of the submitted article, e.g. large language or pathway language models, chatbots, image creators, etc. In addition to this form, authors are to disclose the same in the cover letter and within the submitted work.
6. This declaration does not apply to basic tools for checking grammar, spelling, references, etc.
7. If used, describe what technologies were used and how:

Copyright Transfer

8. The undersigned authors agree to transfer all copyright ownership of the manuscript to the Annals, Academy of Medicine, Singapore (Annals) if the work is published in the Annals.
9. The undersigned authors also consent to Open Access for their published work in the Annals, according to the terms of the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International ([CC BY-NC-SA 4.0](https://creativecommons.org/licenses/by-nc-sa/4.0/)) license, where the published work may be used non-commercially, while ensuring appropriate credit is given and that new creations are licensed under the identical terms.

Conflict of Interest / Financial Disclosure / Affiliations

10. Please check **ONLY ONE** box and check/fill the declaration box below, if applicable.

- The authors declare that they have NO relevant financial interest in this manuscript, and confirm to declare the following as accurate:

All authors have no affiliations or financial involvement with any commercial organisation with a direct financial interest in the subject or materials discussed in the manuscript.

- All authors certify that their affiliations / financial involvement with any commercial organisation with direct financial interest in the subject or materials discussed in this manuscript if any, are fully declared as follows:

Date: _____

Institutional Board Review Approval

11. Does this study involve human subjects? Yes / No

If yes, was Institution Review Board approval obtained? Yes / No

If yes, state which body approved the study and approval number: _____

If no, explain why approval was not obtained for a study involving human subjects: _____

Patient Consent

12. Patients have a right to privacy that should not be violated. Identifying information, including names, initials, or hospital numbers, should not be published in written descriptions, photographs, or pedigrees unless the information is essential for scientific purposes and the patient or parent or guardian gives written informed consent for publication. <http://www.icmje.org/recommendations/browse/roles-and-responsibilities/protection-of-research-participants.html>
13. Has patient consent been obtained? Yes / No
 If yes, who signed it? Patient / Parent / Relative / Others, please specify: _____
 If no, explain: _____

Clinical Trial Registration

14. The Annals requires clinical trials to be registered in a public registry before consideration for publication. Those who are uncertain whether their trial meets the ICMJE definition should err on the side of registration if they wish to seek publication. If researchers or others have questions about the need to register a specific study, they should err on the side of registration or consult with their institutional review board.
15. Please refer to the registry that you choose to register in, for instructions about the registration process for that specific registry, e.g. <https://www.clinicaltrials.gov>
16. When reporting a clinical trial, authors should ensure that its Data Sharing policy complies with requirements from respective institutional review boards and medical councils, and funding agencies.
17. Is your study a clinical trial? Yes / No
 If yes, please outline registry and number: _____

Standards of Reporting

Authors are to use industry-recognised reporting guidelines such as CONSORT, PRISMA and STROBE when appropriate, to ensure complete and transparent reporting.

18. The checklist relevant to your study type must be completed and uploaded as “Supplementary materials” as part of your submission.
19. Please tick the box corresponding to your study type and the reporting guideline/checklist you have used in the reporting of your study.

For other study types, access and download reporting guidelines at: <https://www.equator-network.org>

Study type	Link to reporting guidelines/checklists	Selection (Please tick)
Randomised controlled trials	CONSORT https://spirit-statement.org/publications-downloads/	
Systematic reviews	PRISMA https://www.prisma-statement.org/	
Observational studies	STROBE https://www.strobe-statement.org/
