

<b>Year</b>	<b>Population number (6–19 years old)<sup>a</sup></b>	<b>New diagnoses of gender dysphoria (n)</b>	<b>Incidence rate (new cases per 100,000 population)</b>
2017	600,510	13	2.165
2018	591,778	17	2.873
2019	589,248	22	3.734
2020	579,900	22 <sup>b</sup>	3.794
2021	563,970	33	5.851

<sup>a</sup> Singapore residents statistics from Singapore Department of Statistics

<sup>b</sup> Decrease in figure likely due to reduction in clinic appointment slots following restriction measures and public healthcare services advisories for COVID-19
